| Naslov                                                                                                              | URL | Autori                                                             | Naslov izvornika |
|---------------------------------------------------------------------------------------------------------------------|-----|--------------------------------------------------------------------|------------------|
| Application of machine learning for the generalization of the response of levees to high-water events               |     | Rossi, Nicola                                                      |                  |
| Methodology for Identification of the Key Levee Parameters for Limit-State Analyses Based on Sequential Bifurcation |     | Rossi, Nicola; Bačić, Mario; Librić, Lovorka; Kovačević, Meho Saša |                  |
| Evaluation of seismic resilience of levees through the development of fragility curves                              |     | Rossi, Nicola; Bačić, Mario; Kovačević, Meho Saša                  |                  |
| Development of Fragility Curves for Piping and Slope Stability of River Levees                                      |     | Rossi, Nicola; Bačić, Mario; Kovačević, Meho Saša; Librić, Lovorka |                  |
| Fragility Curves for Slope Stability of Geogrid Reinforced River Levees                                             |     | Rossi, Nicola; Bačić, Mario; Kovačević, Meho Saša; Librić, Lovorka |                  |
| Razvoj teorije blokova u stijenskom inženjerstvu                                                                    |     | Rossi, Nicola; Mance, Marko; Kovačević, Meho-Saša                  |                  |
